[Wearable Technologies in Neurorehabilitation and Cardiac Rehabilitation: A Narrative Review](#)

Scrivi qui la descrizione...

Rivista: Journal of Bodywork & Movement Therapies

2026

[Hidden Challenges: A cross-sectional study on prevalence and determinants of sexual dysfunction in Men and Women with Multiple Sclerosis](#)

Rivista: Medicina

2025

[Comparison of Cardiorenal Syndrome and Heart Failure: A Preliminary Study of Clinical, Cognitive, and Emotional Aspects](#)

Rivista: NeuroSci

2025

[Efficacy and feasibility of virtual reality-based cognitive tele-rehabilitation in Parkinson's disease: A pilot randomized controlled trial on patients and caregivers](#)

Rivista: Digital Health

2025

[Psychic and Cognitive Impacts of Cardiovascular Disease: Evidence from an Observational Study and Comparison by a Systematic Literature Review](#)

Rivista: Medical Sciences

2025

[The Impact of Co-Occurring Behavioral and Emotional Problems on the Quality of Life of Caregivers of Autistic Children: A Preliminary Study](#)

Rivista: Journal of Clinical Medicine

2025

[Personality Traits in Adolescents with ADHD: Insights into Dimension Evaluation and Clinical Implications Using the Personality Inventory for the DSM-5 Questionnaire](#)

Rivista: Journal of Clinical Medicine

2025

[Moving toward the digitalization of neuropsychological tests: An exploratory study on usability and operator perception](#)

Rivista: Digital Health

2025

Humanoid robots for psychological assessment in mild cognitive impairment: from evaluation to the future of AI-driven data prediction systems

Rivista: Frontiers in Psychology

2025

Donkey-assisted therapy in mental health conditions: a systematic review

Rivista: Frontiers in Psychiatry

2025

Observational protocol on neuropsychological disorders in cardiovascular disease for holistic prevention and treatment

Rivista: Future Cardiology

2024

"BrainHeart": Pilot Study on a Novel Application for Elderly Well-Being Based on Mindfulness Acceptance and Commitment Therapy

Rivista: Bioengineering

2024

Optimisation of Remote Monitoring Programmes in Heart Failure: Evaluation of Patient Drop-Out Behaviour and Healthcare Professionals' Perspectives

Rivista: Healthcare

2024

Artificial Intelligence and Heart-Brain Connections: A Narrative Review on Algorithms Utilization in Clinical Practice

Rivista: Healthcare

2024

Smartphone-Based Cognitive Telerehabilitation: A Usability and Feasibility Study Focusing on Mild Cognitive Impairment

Rivista: Sensors

2023

Paving the Way for Predicting the Progression of Cognitive Decline: The Potential Role of Machine Learning Algorithms in the Clinical Management of Neurodegenerative Disorders

Rivista: Journal of Personalized Medicine

2023

Virtual Reality Technology to Enhance Conventional Rehabilitation Program: Results of a Single-Blind, Randomized, Controlled Pilot Study in Patients with Global Developmental Delay

Rivista: Journal of Clinical Medicine

2022

Feasibility, Usability, and Customer Satisfaction of the Tele-COVID19 Project, Sicilian Model

Rivista: Medicina

2022

Humanoid Robot Use in Cognitive Rehabilitation of Patients with Severe Brain Injury: A Pilot Study

Rivista: Journal of Clinical Medicine

2022

Care models for mental health in a population of patients affected by COVID-19

Rivista: Journal of International Medical Research
